Tractor & combine harvester sales in South Africa: up to March 2025

02 May 2025

Indemnity

The Western Cape Department of Agriculture prepared this data/information as accurately as possible. However, as this document contains data from various sources, its correctness cannot be guaranteed. Any person using this information will be doing so at own risk and the said organisation or any other party will under no circumstances be responsible for any loss suffered by any person/organisation using the information contained in this document.

Monthly sales trends (Source: SA Agricultural Machinery Association)

- **March tractor sales of 671 units** were almost 35% more than the 498 units sold in March last year. Year-to-date tractor sales are now approximately 27% up on last year.
- **Thirty-seven combine harvesters** were sold in March, eleven more than the 26 units sold in March last year. On a year-to-date basis, combine harvester sales are now approximately 17% up on last year.
- Current predictions are that tractor sales will be similar, or marginally more, than the 6 463 units sold last year.
- Combine harvester sales of between 180 and 190 units are expected for 2025.
